23rd April 2021

Dear Parents

This is a message today from our Public Health team.

Public Health – It has been quiet re COVID cases and the case rate has dropped to 34/100,000 but the latest information shows that reduction to be stalling and there has been a slight increase. That's to be expected following restrictions lifting. The rise in cases is highest in younger age groups 11+

Please remember that there is still no meeting indoors and only 6 or 2 households outdoors.

It is essential that we all still abide by the rules if we do not want to see another rise and a lockdown.

Kind regards,

Mrs Clarkson
